

## Update grandMA3 Consoles

**Important:**

- The folders EFI, ma, and the update.scr file have to be directly accessible on the flash drive and must not be located in an extra folder.
- The USB flash drive's data system has to be FAT32.

1. To update a grandMA3 device, download the latest software version from [www.malighting.com](http://www.malighting.com).  
The required installer is called grandMA3 Software x.x.x.x.
2. Extract the zip file and copy the folders EFI, ma, and the update.scr file into the root directory of your USB flash drive.
3. Insert the USB flash drive in the device's USB port.
4. Turn off the grandMA3 device.
5. Power up the grandMA3 device.
6. Press the key **8/F8** on the integrated or the external keyboard several times.  
The **Boot Manager** opens.
7. Scroll down to EFI USB Device 'name of USB flash drive' using the arrow keys.
8. Press **Please**.  
The console starts to boot.

**Important:**

If the USB flash drive contains more than 1 version, select the version you would like to install first.

The Install Selector dialog appears:

*Install software*

9. Select one of the options 1-3.
10. Press **Please**.
11. Wait for completion.  
The grandMA3 console starts to reboot.
12. Remove the USB flash drive.

The Mode Selection dialog appears.

Select mode

13. Select one of the modes.

- Screens 1, 2, 3 are initializing.
- The letterbox screens go into self-test mode (red, green, blue, white, and black color changer).
- The command screens stay black.  
It can take several seconds for them to start initializing.

The mode you selected is installed on the grandMA3 console.
